

AMERICA GODSTIME

No. 21, Today FM Street, Off East-west road, Port Harcourt, Rivers State, Nigeria

PERSONAL INFORMATION

Date of Birth: 25th Dec. 2002

Nationality: Nigeria

Marital Status: Single

Language Spoken: English

PROFESSIONAL SUMMARY

I am a result driven software developer with 4years of experience in designing, developing, and deploying scalable applications. Proficient in HTML, CSS, JavaScript and Python with expertise in React JS, Next JS, Tailwind, Node JS, Langchain and Fast api. I do use React and Next JS on the frontend with Node and Express JS on the backend. I also integrate Langchain with Python for AI automations and Fast api for creating endpoints and testing.

TECHNICAL SKILLS

- HTML, CSS, JavaScript, Python.
 - React JS, Next JS, Tailwind, Node JS, Langchain
 - MongoDB
 - Git, Fastapi
-

WORK EXPERIENCE

Software Development: I did intern at Pactag Technologies in Port Harcourt as a Software Developer. My internship duration lasted for 2 years and within this timeframe I learnt several other skills like communication and team management.

EDUCATION

B.Sc. in Computer Science

PROJECTS

- **Trading web app:** This is a web app used for trading crypto currencies. It integrates various features including real-time crypto currency prices for accurate trading analysis, a deposit and also withdrawal feature which allows user to do their withdrawals and deposits with ease.

I single handedly worked on this web app using frameworks like Next JS and tailwind for the frontend and Node js and Express for the backend while using MongoDB as its database.

- **A marketplace web app:** This is a web app where users come in to place orders for goods they wish to purchase. In this project, I worked on the frontend and built several UIs for different pages. I made use of just Next JS and tailwind for it.

COMMUNICATION

I'm quite proficient in English language and so far it has helped worked and communicate better both at my workplace and in the society at large.
